ELGIN|BUTLER 

In today's cost-conscious environment, designers are relying on Elgin Butler glazed brick to enhance projects with color and texture. Traditional face brick is beautifully transformed by adding ceramic glazed accents and trim in over 60 standard colors and custom finishes. Visit us at www.elginbutler.com to view our Color Selection Guide.

For your next project, accessorize with Elgin Butler—because standard brick masonry is such a *fashion faux pas*.
