Elgin Butler Company Definitions:

Glossy – High gloss

Satin – Medium gloss

Matte – Low gloss

Ultra Matte – No gloss or stone-like finish

Unglazed – Natural fired clay with no glaze or coating

Mottle – An application of glaze(s) with a stippling effect resulting in a texture

Specks/Frits – Mineral oxides added to the glaze that form a speckled appearance. The size and texture of the granules vary.

Elgin Butler Company Textures:

Smooth/Dieskin – An unaltered surface as extruded from the die

Velour/Wire-cut – Extruded from the die with the surface “wire-cut” resulting in a roughened finish

Acapulco – A wavy finish rolled on to the extruded dieskin surface resulting in a unique reflective quality

Combed or Scratched – A rough texture finish resulting from running the extruded clay through wires or brushes that scratch or score the clay body surface
